

U.L. Listed Alarm Monitoring Services

PROVEN RELIABILITY

Our Central Station is U.L. Listed & FM approved which means a third party has determined that it meets strict guidelines pertaining to the Building Structure, Signal Receiving Equipment, and Staffing Levels.

TECHNOLOGY

We put you in control of your accounts with unprecedented access. View your Call List, Pass-Code List and Account Activity from your PC, PDA, iPhone, iPad, Droid, or Blackberry mobile device.

WIRELESS

Our monitoring services do not rely upon telephone lines. Available Wireless communications systems are not susceptible to line cuts, are VOIP compatible, and can eliminate the need for telephone lines.

Multiguard is proud to offer the finest alarm monitoring services available today. With leading edge technology and highly trained individuals we are able to respond to critical events with lightning speed. Whether we are notifying Police, Fire, Guard Service, or other authorities, all alarm events are treated with the utmost importance.

Two Liebert 150kVA Un-interrupted Power Supply units, wired into a dual-buss configuration, guarantee continuous and uninterruptible power. Only one is required to power the entire facility.

Dual digitally controlled Caterpillar diesel generators, supported by independent 1200 gallon fuel tanks, supply 1.2 megawatts of secure standby power. This ensures that in the event of complete power loss, our systems will continue to receive power. Our ability to provide the most sophisticated alarm monitoring services is uninterrupted by power brown-outs and black-outs.

What matters most are the people behind the technology. Our Central Station Operators must have an Associates Degree, comparable credits toward a Bachelors Degree or equivalent military experience. They are among the most highly-trained professionals in the monitoring industry and our training program is certified by the Security Industry Association (SIA), and is the most stringent in the industry.

Call us today for an in-depth discussion about alarm monitoring and the benefits of choosing Multiguard as your provider of choice.
